Back to top

G'day,

My name is Zhongjian Xu, currently studying Fullstack Developer course in Coder Academy bootcamp in order to find a career change.

I am a responsible person who is open to trying new things. I am somewhat introverted but optimistic, and I care about others.

In my spare time, I enjoy learning to play the drums, hiking, and seeking out delicious food.

Please feel free to look around for more information and don't hesitate to contact me if you have any questions.

“About” & “Contact” are formed by **two articles** describe my self-introduction and contact details.

At the bottom of each page, there're **three social links** to LinkedIn, Facebook and Github.

Overall aesthetic design

The idea of the overlooking of the website came from “**flat design**”. The first time I knew it is when **IOS7** released for Iphone in 2013. It totally changed the aesthetic design of Iphone interface. I was impressed and loved it since then.

So for the first step, I chose the elements’ color as close as to the IOS7 color.

Secondly,
I chose “Montserrat” as the font, which is close to the flat design style.

Thirdly, by using flex, some elements stack seamlessly, such as part of my home page, which inspired by the “weather” in IOS7.

Whereas disregard and contempt for human rights have resulted

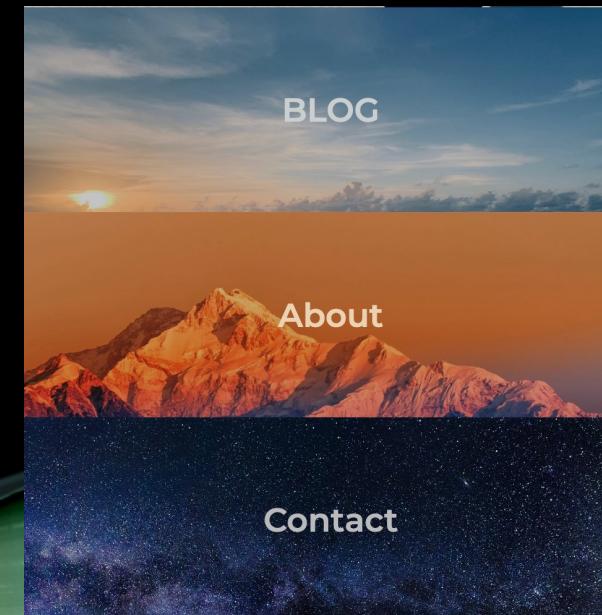

font chosen: Montserrat
